

# OFF THE RAILS ARTHOUSE

## COVID-19 ARRANGEMENTS FOR STUDENTS

August 2020

- Studios have been set up to maximise social distancing (see video).
- The Arthouse will be thoroughly cleaned after each workshop using a water-based humidifier system.
- Students will work in own space, with only essential moving about from there, e.g. using toilet. When moving from work area, face coverings should be worn.
- Some tutors may ask students to wear face coverings throughout workshops. This will be indicated during the booking process.
- Students should bring all materials and equipment, as set out by tutors. No shared materials.
- Students should bring all refreshments including drinks, along with own cutlery and crockery. The kettle, fridge and microwaves will not be available at this time. They should also take all rubbish home.
- Coats and bags need to be kept in students' own work area.
- Students will be encouraged to sanitise own working area, before and after the workshop (spray will be provided). Sanitiser spray will also be provided for other areas such as toilets.
- The Arthouse will provide hand sanitiser throughout the building, but students will be encouraged to bring their own as well. Some emergency disposable masks will also be available.
- Arrangements have been made to avoid bottlenecks in the building, for example limiting the stairway to one person at a time. Signs will be posted throughout the building to remind everyone of the arrangements.
- The Arthouse will ask for student contact details, for Trace and Protect, if necessary. These will be destroyed after three weeks.
